AWARD WINNING SAFETY SYSTEM

- Detects the difference between wood and fingers
- Patented technology
- Revolutionizing table saw safety

THE PROBLEM IS REAL!

- **1 table saw injury every 9 minutes**
- **10 table saw amputations every day**

WHAT'S THE DIFFERENCE?

The Industrial Saw vs. The Professional Cabinet Saw How do they differ and which is the right saw for you?

Industrial Includes:

200+ more pounds of Iron and Steel for heavy duty cycles, maximum stability and ultimate precision.

- Thicker Cast Iron Table for added stability
- Deeper Cast Iron Table (30" vs 27"), allowing for about 2.5" more room behind the blade.
- Thicker gauge steel in the cabinet, rails, tube, and fence.
- Larger and deeper fence. Tracks smooth and locks down solid with no deflection
- Massive cast iron trunnion delivers smooth, precise operation year after year
- Bigger hand wheels for easy adjustment
- Larger metal motor access door for quick access
- Second access door for easy maintenance

Industrial Includes:

Enhanced safety features.

- Industrial lock-out/tag-out switch
- Interrupt switches on all the access doors disable saw when open

Industrial Is:

The most powerful 10" saw!

- Offers the widest range of motor and power options, including an available 7.5hp motor. No other production 10" cabinet saw offers that much power!

Industrial Includes:

3 additional years of motor warranty.

- For a total of 5 years motor warranty

INDUSTRIAL CABINET SAW ICS™ SERIES

Industrial Cabinet Saw with Fence, Rails & Extension Table

The SawStop® Industrial Cabinet Saw is the definition of industrial grade. It is the heaviest, most powerful and highest quality 10" cabinet saw available. Models with the upgraded Industrial T-Glide Advance Rip Fence System offer the durability, versatility, and the peace of mind only SawStop's revolutionary safety system can provide.

- Revolutionary SawStop Safety System stops on contact with skin
- Durable craftsmanship of almost 700lbs of iron and steel and thoughtful details combine for consistent, reliable performance in the most demanding industrial environments
- Provides outstanding dust collection both above the table via the included dust collection blade guard and below the table with advanced shrouding around the blade
- Integrated Lock-Out Tag-Out switch for additional safety to ensure that only authorized operators can use the saw
- Warranty: 2 years saw / 5 years motor

Fence Styles (noted in table):

T-Glide Advance Rip Fence delivers accuracy, versatility, ease of use, and safety like no other rip fence on the market.

T-Glide Rip Fence is a heavy-duty T-square-style fence that is familiar, intuitive and reliable.

JOBSITE SAW PRO WITH MOBILE CART ASSEMBLY JSS™

The SawStop Jobsite Saw Pro delivers durability, innovation and precision with a design that's built for the worksite. Take the world's safest saw wherever the job takes you.

- Stowed Dimensions: 26 1/2" L x 29" W x 45" H
- Class-Leading Table Depth: 24 5/8" table depth means better accuracy and easier, safer cutting
- One Turn Elevation: Raise and lower the blade in just one turn on the handwheel
- Solid Hi-Low T-Style Fence with Ergolock: Slides easily and locks firm with the push of the innovative Ergolock. 25 1/2" rip capacity
- Active Dust Collection Blade Guard: Captures above table dust, helping to ensure a safer and cleaner workspace
- Easy Mobility: Simple, intuitive action extends the Mobile Cart for use and collapse the cart for transport
- Warranty: 2 years with registration

In stowed position

COMPACT TABLE SAW CTS™

The SawStop® Compact Table Saw is the smallest, most portable saw in the SawStop lineup. It provides durability, precision, and power that can be taken to any job site.

- Revolutionary SawStop Safety System stops on contact with skin
- Portable Durability: Heavy-duty construction, that's built to last, provides the stability you need for smooth cuts on the job site. The compact size, carry handle and on-board storage mean you have everything you need at hand
- Rack & Pinion Fence: Easy to adjust or remove and always square, the rack & pinion fence has built-in high and low shelf to support all types of cuts
- Quick Tilt: Quickly and easily tilt the blade to your ideal angle. Further fine-tune with the micro tilt-adjust feature
- Cut & Rip Capacity: A 10" blade and 24.5" fence extension provide exceptional depth of cut and cut capacity
- Storage Compartment: Stow away included accessories and more in one location for easy retrieval
- Not compatible with dado blades
- Warranty: 2 years with registration

*Stand sold separately on Page 14, WXCTS-FS

NOTE: Plugs into a standard 120V outlet.

T-GLIDE ADVANCE RIP FENCE

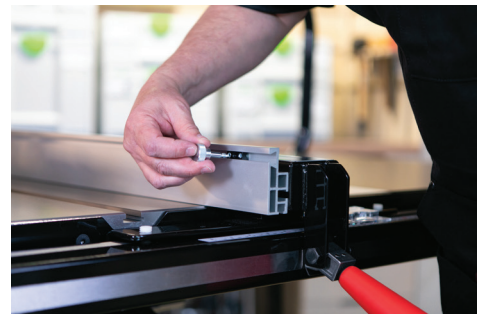

Whether you buy the T-Glide Advance with a new SawStop cabinet saw or as an upgrade to your existing saw, you'll enjoy the many benefits this new fence provides.

- The dead-flat aluminum fence face won't warp over time
- Locks parallel to the blade, once aligned
- Separate scale indicators for high and low fence positions
- Use the Hi-Low aluminum fence in two positions. Low position reaches beneath the blade guard for narrow rip cuts and provides better access for push sticks
- Mount feather boards, sacrificial fences, and other accessories and jigs quickly and securely using the dovetail-shaped slot and included sliding wedges
- Easily slide the fence face forward of the blade for safe, repeatable crosscuts while greatly reducing offcut pinching or potential kick back
- A roller support at the tail end of the tube rolls smoothly across the tabletop and reduces wear marks in the cast iron
- Swap the aluminum fence face to the right side of the T-Glide tube for use on the left side of the blade
- Warranty: 2 years

Item #	Compatibility	Price
WXATGI-FA	ICS	\$399
WXATGP-FA	PCS, CNS	\$349

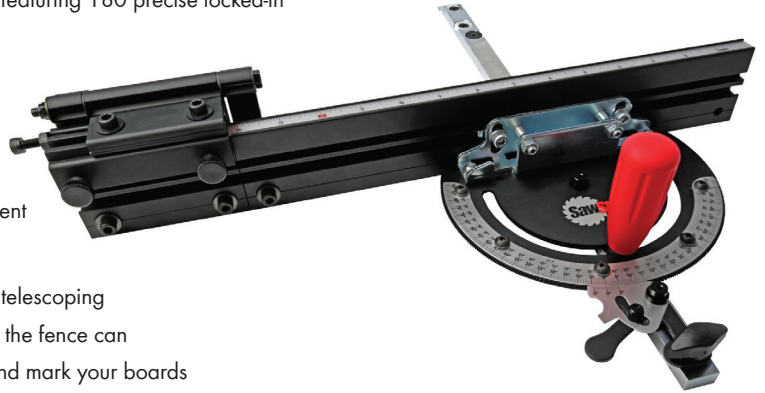

Fits any SawStop cast iron saw (ICS, PCS, CNS), equipped with an existing T-Glide fence, with no modification needed.

SCALE MITER GAUGE

Bring can't-miss accuracy to your table saw with the Scale Miter Gauge, featuring 180 precise locked-in angles, an extendable fence, and micro-adjustable dual-arm flip stop.

- The miter head features a pointer and 90 notches in 1° increments each side of 0°, including one for 22.5° on each side. A Vernier scale lets you fine-tune any angle in 1/10° increments
- An 18"-long miter bar uses six adjustable washers to eliminate movement in the miter slot while ensuring a smooth glide forward and back
- The aluminum fence provides a large reference for workpieces, with a telescoping extension that reaches up to 31" with the flip stop. The scale on top of the fence can be calibrated to enable precise crosscuts without having to measure and mark your boards
- Use the flip stop to make repeated cuts at the same setting for identical project parts. The flip stop indexes on the fence in 1/32" increments. The flip stop's dual arms can be set independently at different lengths from the blade or linked together, all of which can be fine-tuned with a micro-adjuster
- Warranty: 1 year

Item #	Compatibility	Price
WXTSA-SMG	ICS, PCS, CNS, JSS, CTS	\$265

REVOLUTION MITER GAUGE

Get unmatched precision and accuracy with the spin of a dial. Intuitive, tool-free adjustments provide fine-tuning that is exact, reliable, and repeatable.

- The miter angle dial has pre-set increments of 1°, 1/2°, 1/4°, or 1/10° with tactile feedback so you can feel your desired angle click into place, making angle adjustments reliably accurate - quick and easy
- Sliding wedge system for fence attachments and repeatable stops
- Make repeatable cuts up to 37-1/2" in length using the tool-free articulating flip stop - with or without a sacrificial fence. The flip stop includes mounting holes for adding jigs or locking into the wedge system
- Heavy-duty construction including a steel miter plate manufactured with machine tolerances of <.001" for exceptional precision
- Warranty: 1 year

Item #	Description	Compatibility	Price
WXTSA-RMG-SYS	Revolution Miter Gauge in Systainer	ICS, PCS, CNS, JSS, CTS	\$599

OVER-ARM DUST COLLECTION ASSEMBLY

Remove Dust Up and Out Of the Way. Connects directly to SawStop's dust collection blade guard.

- Fits all SawStop T-Glide rail systems
- Custom Y-Port unites above and below-table dust collection into one 4" port
- Compatible with all SawStop Cast Iron saws
- Requires dust collection blade guard TSG-DC
- Warranty: 1 year

Item #	Compatibility	Price
WXTSA-ODC	ICS,PCS,CNS	\$349

FLOATING OVERARM DUST COLLECTION GUARD

This heavy-duty 4" overarm is designed to provide operator protection while removing table-top dust in both standard and non-through cuts. The transparent blade cover is engineered to lift easily for quick blade access, and the rigid steel overarm swings smoothly away and back into operating position.

The wide pipe allows for high air volume collection.

- Blade Guard Dimensions: 3 1/2" x 18 1/2"
- Distance between blade and end of extension table: 35 3/4" to 68"
- Inner Dust Tube Diameter: 3"
- Outer Dust Tube Diameter: 4"
- Outer Dust Tube height above table: 13 1/2"
- Outer Dust Tube height above floor: 33 1/2" to 50"
- Warranty: 1 year

Item #	Compatibility	Price
WXTSG-FDC	ICS,PCS,CNS	\$615

FOLDING OUTFEED TABLE

Engineered from steel for maximum carrying capacity, the outfeed table is sized to match the width of your cast iron table and wings. The table is designed for easy adjustability and maximum glide, with strategically-placed rollers for smooth operation. Compatible with all SawStop Cast Iron Table Saw mobile bases, the Folding Outfeed Table quickly stows for an easy move.

- Powder Coated Steel Construction
- Stamped Steel Support Plate
- Three Roller Bars
- 250lb. Capacity
- Adjustable Feet
- Warranty: 1 year

Item #	Compatibility	Price
WXTSA-FOT	ICS,PCS	\$475

SLIDING CROSSCUT TABLE ATTACHMENT

Engineered and finished to fit your SawStop Contractor, Professional Cabinet or Industrial Cabinet Saw, the Sliding Crosscut Table is the finest quality crosscut table available. It delivers repeatable, accurate results with ease and beauty.

- This sliding table is built for versatility. Micro-adjust for detail cuts, and crosscut full sheets with the 55" travel and 48" crosscut capacity
- The fence is at least 15% larger than typical crosscut sliders, spanning 43" and extending past 58". The oversize fence miter turns at the twist of a single knob, and measures to a full 60 degrees
- Adjust the table to fit your needs. Easily slide the fence in for blade proximity, and choose a flush or "maximum throw" installation to fit your shop and space requirements
- Large flip-stops with scale and magnified lenses help ensure accurate, repeatable cuts every time
- Warranty: 1 year

Item #	Compatibility	Price
WXTSA-SA48	ICS,PCS,CNS	\$1,485

LARGE SLIDING TABLE

Engineered for the demands of the Industrial woodshop, the Large Format Sliding Table ensures easy, repeatable operation. Cut sheet goods and larger stock easily, with maximum control and sure measurement. A rigid steel frame and 14 sealed, steel bearings ensure a reliable, smooth glide, and maximum adjustability affords both traditional and Euro configurations for a max crosscut of 70 inches.

- Table Dimensions: 30" x 30 1/2"
- Maximum Travel: 71 1/2"
- Maximum Rip Capacity (Front Mounting): 49"
- Maximum Rip Capacity (Rear mounting): 70"
- Weight Capacity Fully Extended 350 lbs
- Versatility-There are six different mounting options that allow for maximum adjustability in both traditional and European configurations. The aluminum fence can be easily removed and stored on the side of the sliding table with the included fence storage brackets
- Efficiency-Detents set at 0, 15, 22.5, 30 and 45 degrees ensures quick and reliable cuts. The included flip stop allows the operator to set measurements for repeatable cuts
- Warranty: 1 year
