HOW TO WASH YOUR HANDS PROPERLY

1

Wet your hands with clean, running water.

2

Lather your hands with soap.

3

Rub your hands together with the soap. Lather the **palms** and the **backs of your hands**, your **fingertips**, **nails**, the **space between your fingers** and your **thumbs**.

Properly washing your hands will take up 20 - 30 seconds.

4

Then, rinse your hands with clean, running water.

5

Dry your hands carefully and do not forget to dry the space between your fingers. In public restrooms, it is best to use a paper towel. At home, everybody should use his or her own towel.

PLEASE NOTE:
Limit Per Account
per Month: 200 Each
per Size

per Month: 100 Each per Size

WASH. RINSE. REUSE. REPEAT.

DID YOU KNOW? Did you know that you could wash your dipped gloves? In this current pandemic, hand protection will be more important than ever. We have multiple options for disposable nitrile gloves. However, demand is at an all-time high, and stock is becoming very limited. Did you know that we sell dipped gloves that offer just as much protection as

our disposable gloves? These dipped gloves are reusable, but they can be washed with soap and water just like your hands! Washing your hands with soap and water for 20 seconds is still one of the most effective ways to prevent viruses. Just choose your glove option below and follow the glove care guidelines after each use.

HOW TO CLEAN YOUR GLOVES

DO'S & DON'TS

STEP 1

DO

We recommend washing your Nitrile/Latex/Polyurethane (PU) coated gloves in a sink using mild laundry detergent or dish-washing soap. Wash thoroughly for at least 20 seconds or until gloves are clean.

DON'T

Do NOT use bleach or solvents as these oxidizing agents can cause discoloration.

STEP 2

DO

We recommend air-drying your gloves to prevent any material shrinkage and maintain proper sizing.

DON'T

Do NOT machine dry with heat or expose the gloves to a heat source other than indirect sunlight.
